• software developer and educator •

SOFTWARE DEVELOPMENT

- 2012 - present** **Senior Software Consultant / Senior Software Developer**
Sogeti USA + PNC Bank
- Created and deployed a high-impact, high-visibility product which will save 700 hours of work per month and take the loan decisioning process from 40 minutes to 55 seconds.
 - Day-to-day work incorporates the tools and languages C#/.NET, Angular, SQL/SSMS, MVC, Kendo UI, Bootstrap, GIT, Linq, SoapUI, and others.
 - Act as a leader and technical consultant even within development teams.
 - Member of the Consultant Advisory Board, a committee responsible for being a liaison between consultants and management. Has personally organized five corporate volunteer events. Considered a High Potential employee.
- 2010 - 2012** **Webmaster & IT go-to**
Cutler Scholars Program
- Maintained, updated, and redesigned website. Created print, digital, and online designs.
 - Responsible for maintenance of all machines and (Access) database (worked as an IT go-to).

EDUCATION AND INSPIRATION

- 2015 - 2018** **Technical Instructor**
Girl Develop It Dayton
- Developed and taught classes for several GDI classes of up to 20 adult coders (who are often complete beginners).
 - All course materials were self-developed (course structure, slide decks, practice content, etc.).
- 2015 - 2018** **Volunteer Programming Instructor**
Code.org's Hour of Code
- Taught programming classes to young people (ages ranging from kindergarten to high schoolers) during Hour of Code week, which aims to get as many students as possible coding for just one hour.
 - These classes are both a formal foundation to coding and an intro to life as a software developer.
- 2016 - 2017** **Volunteer Programming Instructor**
Girls Who Code at the Tipp City Library
- Taught semester-long programming classes to girls.
 - Curriculum was a combination of modified and self-developed.
- 2010 - 2012** **Programming and Robotics Instructor**
TECH CORPS Ohio
- Taught elementary and middle schoolers programming, robotics, and web development. Responsible for five classes of 20 kids at a time.
 - Used Alice, Scratch, and Lego NXT programming languages, as well as NXT Lego robots.
